

How to Play

Betting

Accepting New Bets

Received a bet? To accept it, click on bets tab, and make sure you are in the open bets section. Click on the bet and click accept.

Making Your Own Bet – Head to Head

Have a Head to Head bet in mind? To create your very own bet, select your chosen game in the matches tab, followed by BET NOW.

Select Head to Head and add the value you wish to bet. Choose your opponent from your friends list and click Send Bet. You will be notified once your opponent has accepted the bet.

Making Your Own Bet – Next Goal Scorer

Have a Next Goal Scorer bet in mind? To create your very own bet, select your chosen game in the matches tab, followed by BET NOW.

Swipe right to Next Goal Scorer and add the stake you would like to bet (Please note: this stake is per goal). Choose the number of goals you wish to play (this is the maximum number of sweepstakes that can be played within the bet. Finally, select Send Bet. You will be notified once your opponents have accepted the bet.

You will be deducted the maximum stake that can be played in the game, but if there aren't enough goals to reach that amount, the remaining funds will be returned to your BetSquad account.

Transactions

Add Funds

To add funds, ready to use on the app, simply click your balance in the top right when in the matches tab and click Deposit Funds. From there...

Transaction History

To view your transaction history, click your balance in the top right when in the matches tab, and select Transactions. Here, you will have a full run down of your full transaction history.

Profile

Update Your Profile

In a social betting app like BetSquad, it's nice to put your best foot forward. To update your profile, simply click the image in the top left. From there, you will be taken to your profile page. Here, you can make any changes you wish to make to your profile, including the team you support, your image and any other details available.

Change Your Notifications Settings

To change your setting, click the image in the top left. From there, you will be taken to your profile page. Select settings and click Notifications. Here, you will be able to change your notification setting.

Please Note: If you turn off push and email notifications, you will no longer receive any specials we offer in the future.

Betting History

Reviewing Past Bets

Sometimes it's nice to take a trip down memory lane. To review your betting history, head to the Bets tab and select the Closed option. Here, you will see all your bets that you have taken part in.

Reviewing Open Bets

A good bettor is an informed bettor. To stay on top of all your open bets head to the Bets tab and select the Open option. Here, you will see all your open bets.

Friends

Add Friends

It's time to create your own #BetSquad. To add friends, head to the Squads tab. Use the search tool to find your friends on the app. Click the green plus icon to send them a friend request.

Or, why not connect your Facebook account to your BetSquad profile, and we'll add any of your Facebook friends who have a BetSquad account automatically?

Connecting Your Facebook Account

Connecting your Facebook account to your BetSquad profile makes finding your friend even easier. Head to the Squads tab and select Connect Facebook Account. Select continue when prompted, and we'll do the rest.

We'll add any of your Facebook friends who already have a BetSquad account automatically to your friends list.

Finding Friend Requests

Have a friend request waiting? Head to the Squads tab. If you have received any friend requests, you will be able to accept or reject them here.

Inviting Friends

Your friends not on the app? What are they waiting for? Select the Squads tab and Invite Friends. From there, you can invite your friends via WhatsApp to join the app.

Starting a Chat

BetSquad is all about social betting. To start a chat with you and your friends, head to the chat tab and hit the plus symbol in the top right. From there, either start a new group chat by hitting New Group Chat, or find your friend's account name and select it.
